Global Medical Flight Case Management

Across Canada and Around the World Celebrating 29 years of Service Excellence

Thank you for the help you provided our consular clients over the years. Without your service and dedication, quite a few of my consular clients would not have managed to return to Canada. Please continue to do the great work you are doing.

Repatriation

Thank you for everything. It was a monumental task and there is no way it would have happened without your hard work, dedication and professionalism. The amount of obstacles thrown in our path was quite daunting but everyone persevered. We will be forever grateful to Angels of Flight. .. Amazing job... true angels

Treatment

These flights are always so complex and we often find ourselves going in circles. I can't say enough about how helpful everyone has been. Often when I am trying to facilitate, I hear from various people that they can't help, not their mandate, not their area or whatever. But your staff just roll up their sleeves and get it done. Thank you Angels of Flight Canada

"Every Moment is Precious"

How does one begin to express gratitude for the defining moments in life when one reaches out a hand to those in need and is able to bring family, friends, and community together by one act of kindness and love. Your efforts, your understanding and meeting his every need met our need as well. You brought us home at a time when the one you love is diagnosed with a terminal illness; when every moment is precious and every moment counts. As a result of your support we get to create memories that are filled with comfort and peace of being surrounded by the love of family, friends and community. Memories that will help uplift and sustain us for years to come.

One act of kindness and you have touched the lives of hundreds of people but for me and my family you will always be lovingly remembered and never forgotten because you have been for us "the wind beneath our wings"
